

## Raymond Temtsen

As a backend engineer, I've collaborated with teams to create, manage web and mobile applications. Crafting APIs for FinTech and content management, I've played a pivotal role in startup growth, turning abstract concepts into practical solutions.

## Work Experience

### Back End Engineer • Tech Fusion Africa

January 2021 - Present

Development and management of multi-tenant APIs with NestJS for the company's fintech software.

### Back End Engineer • FinefeatherCare

November 2020 - January 2021

Teamed up to build a case management system and Trello-like list application.

### Lead Application Developer • Heaven Dynasty Limited

January 2020 - October 2020

I coordinated a team to build and manage a server rendering web application using NodeJs, EJS Templates.

### Intern • nHub Nigeria

March 2019 - September 2019

During my Nhub Nigeria internship, I played a dual role in web development and education. I crafted websites, web and mobile applications, focusing on user-friendly design using HTML, CSS, Node.js, React, and React Native.
